CyTime Event Manager

Combined SER Event Coordination

The CyTime Event Manager is a single point of reference for multiple sequence of event recorders.

The CyTime™ Event Manager provides the ability to view and monitor I/O status from multiple Cyber Sciences Sequence of Event Recorders (SERs) in one easy to understand web interface. This helps to provide an overall view of the diagnostic health of the critical power system.

This intuitive, simple to use tool lets users take better advantage of precision time recordings of status changes in electrical equipment. Where critical power applications are concerned, the Event Manager helps easily identify I/O status and speed up troubleshooting efforts when an event has occured.

The Event Manager also allows the consolidation of events from all down-stream SERs pertaining to a single incident, providing fast and powerful event reconstruction analysis. A valuable resource to help identify power loss events quicker, saving time and money for power restoration in critical power applications.

Know what happened and when—

CYBER SCIENCES™

CyTime Event Manager - Combined SER Event Coordination

System Architecture

Features / Benefits

Easy Setup of Event Manger via Web Interface: Simple setup using standard web browser.

Status Monitoring of Unlimited SERs from One Web Browser: Get quick analysis of each SER on the network, with an intuitive user interface.

Remote Firmware Update of any SER on the Network: Easily update firmware on any SER located on the network, configure time synchronization settings, input and output settings.

Custom Templates: Create custom templates to use when duplicating settings such as; input naming, time synch input protocol, and others on setup of multiple SERs.

Password Management: Manage and change passwords of connected SER devices.

Event Logs: View at once, the event logs from all connected devices on the network .

I/O Status Screen: View all I/O status ON/OFF indicators on each circuit per each SER located on the system.

Diagnostics: Quickly and easily ascertain diagnostics on each individual system device.

Reduce Downtime

Each minute of downtime is costly for critical facilities. Our solutions provide the essential data needed before, during and after a critical power incident to help recover quicker.

Ordering Information

The following models are available for the CyTime Event Manager:

	Catalog no.	Description
CyTime™ Event Manager	EM-100-25	CyTime Event Manager, DIN Rail Mount (25 Unit Support)
	EM-100-UNL	CyTime Event Manager, DIN Rail Mount (Unlimited Unit Support)
	EM-100-UPG	CyTime Event Manager Upgrade (Upgrade from 25 to Unlimited Unit Support)
