

# Software Release Notes

---

**Part Number:** SW90216  
**Description:** Oztek Power Studio  
**Release Number:** 4.2  
**Release Date:** 4/22/2020  
**Revision:** A

## **New Features:**

- Added support for Modbus over Ethernet using the USR-TCP232-410s Serial to Ethernet Converter

## **Bug Fixes:**

- Fixed an issue when using PCAN devices where the user had to disconnect and reconnect to start polling the target device
- Fixed an issue when using multiple targets where downloading an image on one target and switching to another one would not start polling
- Fixed a graphical issue where the form controls were enabled when disconnected in certain situations
- Fixed an issue where the “Write All” configuration feature did not write some data
- Fixed issue where the target could not run the flash application after downloading the image using the Software Upgrade tab

## **Compatibility Notes:**

- N/A
